

The image features a dynamic and colorful background of paint splatters in various hues including red, orange, yellow, green, blue, and purple, radiating outwards from the center. Overlaid on this is a large, clean white circle with a thin dark green border. Inside this circle, the words "HOLY LASER" are written in a dark green, serif, all-caps font, centered horizontally and vertically.

CONTACT US

Established : June, 2006

Registered capital:10 million Yuan

Number of employees:More than 120 people,80 people with college education

R & D team: 35 people

Service Content:Full set of industrial laser application solutions

We have sold our machine to more than 50 countries all over the world, like, USA, UK, Italy,Germany, Brazil, Russia, South Korea, Mexico, Spain, Canada, Finland, Estonia, India, Indonesia, Egypt, Singapore, Laos, Myanmar, Vietnam, Mongolia, Mexico, Brunei, Thailand, Pakistan, Vietnam, Singapore, Iran, Turkey, Bahrain, France, Denmark, Sweden, Netherlands, Poland, Norway, Pakistan, Kuwait, Saudi Arabia, United Arab Emirates, Romania, Bulgaria, Spain, Portugal, Morocco, Poland, Monaco, Algeria, Malaysia, Japan, etc.

Products: Laser welding, laser cutting, laser marking,3D laser inside engraving, automation, robotics, 3D printers and other series of equipment

Patents and certifications: We have 1 invention patent, 21 utility model patents, 6 appearance patents and 4 computer software copyrights.

Subsidiaries: Suzhou Branch, Wuhan Branch, Shenzhen Branch

Offices around the country: Set up offices and distributors in many key cities across the country, serving radiation throughout the country.

## PRODUCT DESCRIPTION

UV laser marking machine laser marking machine series, so the principle with the laser marking machine similar, are using a laser beam in a variety of different material surface marked with a permanent mark. The effect of marking is to expose the deep matter by the evaporation of the surface material, or to "mark" the trace by the chemical and physical changes of the surface material caused by the light energy, or to burn out some of the material by light. Pattern, text.

UV laser due to the small spot, and the processing of heat affected area is small, which can be ultra-fine marking, special material marking, marking the effect of a higher demand for customers preferred products. UV laser in addition to copper material accident, suitable for processing more extensive material. Not only the beam quality is good, the focus spot is smaller, can achieve ultra-fine mark; scope of application is more extensive; heat affected area is very small, does not produce thermal effect, will not produce material scorching problem; mark speed, high efficiency; Stable, small size, low power consumption advantages.

## TECHNICAL PARAMETERS-1

MODEL NO. :	HSGP-3W	HSGQ-5W	HSGQ-10W
Laser Power :	>3W	>5W	>10W
Laser Source:	Huaray		
Working Area :	100*100mm/300*300mm		
Cooling :	Water Cooling		
Marking Speed :	1-7000 mm/s		
Computer :	HP		
Scan Head :	SHENZHEN		
Field Lens :	SHENZHEN		
Software & PCIE Card	EZCAD (Genuine Beijing JCZ)		
Warranty :	1 Year		

## 04

## APPLICATION

Industries included: Electronic hardware, mobile phone keypads, medical devices, product packaging, eyeglasses and clocks, auto parts, online production, gift advertising, material detection, etc...

Materials included: Theoretically, most of the hard, brittle, dark materials can be marked, that is to say most of the metal materials, and some of the specific non-metallic materials such as plastic, fiber laser marking machines can hit. Marking effect is based on actual results, especially on some materials such as hard plastic.

Advantages

Materials: glasses, acrylic, crystals, etc

## SERVICE

If we start our business relationship, we will sign the contract in accordance with the final negotiation results and strictly perform the contractual obligations.

We provide 1 Year warranty (except for wearing parts), we will respond in 24 Working hours for after-sales problems. If the problem cannot be solved remotely, after our technician confirms that it is necessary to send the damaged parts for repair or replacement, we will update maintenance progress within 48 hours after receiving the parts !

We will provide lifetime technical maintenance and software service upgrades !

## PACKING & SHIPPING

holylaser.en.alibaba.com

### PACKING:

- Waterproof membrane packing inside
- Professional Export Standard Fumigation-Free Plywooden Case

### SHIPPING:

- Air shipping
- Sea shipping
- Land transportation (Mainly for Moscow,etc Customers)
